RE: R Zone, Reservoir A

MA-1 Sand, Reservoir C  
Patterson Field  
St. Mary Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made, pursuant to Rule 8 of the Rules of Procedure, on behalf of **DEVON ENERGY PRODUCTION CO., L.P.** for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of Orders pertaining to the following matters in the **R Zone, Reservoir A**, the **Db Zone, Reservoir A** and the **MA-1 Sand, Reservoir C**, all in the Patterson Field, St. Mary Parish, Louisiana, to-wit:

1. To establish rules and regulations and create a single drilling and production unit for the exploration for and production of gas and condensate for each of the above referenced reservoirs, such units to be designated R RA SUA, Db RA SUA and MA-1 RC SUA, respectively;
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within each of the proposed units, with each tract sharing in unit production on a surface acreage basis of participation;

3. To designate unit wells for the proposed units;
4. To designate Devon Energy Production Co., L.P. as the unit operator for the proposed units;
5. To provide that the Commissioner of Conservation should be authorized to reclassify these reservoirs by supplemental order without the necessity of a public hearing if the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation; and
6. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The R Zone in Patterson Field, St. Mary Parish, Louisiana is hereby defined as being that gas and condensate bearing interval encountered between the depths of 11,447 feet and 11,963 feet, electrical log measurements, (11,069 feet and 11562 feet (TVD), in the Devon Energy Production Company L.P.-A. B. Zenor No. 1 well located in Section 44, Township 15 South, Range 11 East, St. Mary Parish, Louisiana.

The Db Zone in Patterson Field, St. Mary Parish, Louisiana is hereby defined as being gas and condensate bearing interval encountered between the depths of 12,925 feet and 13,220 feet, electrical log measurements, in the Cockrell Corp.-A. B. Zenor "F" No. 1 well located in Section 43, Township 15 South, Range 11 East, St. Mary Parish, Louisiana.

The MA-1 Sand in the Patterson Field was previously defined in Office of Conservation Order No. 395-Y, effective July 24, 1968.

A conference to discuss the proposed application and any opposition thereto **is hereby scheduled for** 10:00 a.m., on Friday, November 1, 2002, at the Onebane Law Firm, 102 Versailles Blvd., Suite 600, Lafayette, Louisiana, (337) 237-2660; requests to hold the conference are not necessary.

Pertinent data relating to the proposed application can be obtained, AT THE COST OF THE REQUESTING PARTY, by contacting Frank Harrison, Jr., 200 Audubon Blvd., Lafayette, Louisiana 70503, (Phone: 337-232-4031).

**P.S. To all Interested Owners, Represented Parties and Interested Parties:**

You may have received this Application even though your property is not included in the proposed unit, because the Revised Rules of Procedure require us to attempt to also notify everyone owning an interest in the area "proximate to" the proposed units. In some cases, the area proximate to proposed units can extend as far as one-half mile outside the unit boundary.
